

Product Name :
Concrete Pan Mixer

Product Code :
TEST5060RFQLAB-0010

Description :

Concrete Pan Mixer for Testing Lab Equipment Tender Suppliers India

Technical Specification :

Moulding specimens of Concrete is an important activity and good specimen can be achieved only if the cement paste covers the aggregate thoroughly and uniformly before pouring the concrete mix into standard moulds. The object of efficient mixing can be most satisfactorily achieved in Pan Mixers, which are available in 40, 60 & 100 liters.

These mixers have been designed and developed to mix both dry & wet materials. Manually controlled mixers are rotated by a turntable which is driven by an electric motor. The mixing pan is removable and can be tilted for easy emptying of the material. The mixing blades and paddle are made of special steel for fast and effective mixing operation and are long lasting to withstand wear & tear. Mounted on a sturdy but light Steel frame, they can be easily moved about on wheels.

Reliable and efficient mixing.

Simple to operate & maintain

Compact & Easy to move

Capacity 40ltr

Capacity 60ltr

Capacity 100ltr

We are a leading manufacturers of Concrete Pan Mixer testing equipment for a range of industries, including materials science testing lab. We offer full range of Concrete Pan Mixer testing equipment, including Concrete

Pan Mixer testing kit, Concrete Pan Mixer testing machine, Concrete Pan Mixer testing tools, Concrete Pan Mixer test equipment, Concrete Pan Mixer test machines, Concrete Pan Mixer for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Concrete Pan Mixer testing equipment that helps customers build better, safer, and more sustainable infrastructure.
