

Product Name :
Electronic Flexure Strength Testing Machine

Product Code :
TEST5062RFQLAB-0003

Description :

Electronic Flexure Strength Testing Machine

Technical Specification :

Except that the system is provided with electronic readout unit instead of load gauge. Read out unit has facility for peak hold in addition to auto ranging of the load displayed in kN. RS232 is provided as standard, which can be coupled to the computer through serial port.

We are a leading manufacturers of Electronic Flexure Strength Testing Machine testing equipment for a range of industries, including materials science testing lab. We offer full range of Electronic Flexure Strength Testing Machine testing equipment, including Electronic Flexure Strength Testing Machine testing kit, Electronic Flexure Strength Testing Machine testing machine, Electronic Flexure Strength Testing Machine testing tools, Electronic Flexure Strength Testing Machine test equipment, Electronic Flexure Strength Testing Machine test machines, Electronic Flexure Strength Testing Machine for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Electronic Flexure Strength Testing Machine testing equipment that helps customers build better, safer, and more sustainable infrastructure.
