

Product Name :
100 KN Flexure Testing Machine with Auto Pacing System

Product Code :
TEST5062RFQLAB-0004

Description :

100 KN Flexure Testing Machine with Auto Pacing System, 200 KN Flexure Testing Machine with Auto Pacing System

Technical Specification :

It is a state-of-the-art machine. Total control of the machine is through the key board. Entry of the pace rate either on stress or strain basis is programmed through the touch panel display. In the process of the test, readings are displayed on the digital display along with pace rate indication. Once the specimen brakes the ram retracts to its original position. The accuracy of the displayed reading is as per IS 1828 Grade I or BS 1610 Grade 'A'. Machines can also be supplied to meet the norms of BS 1881. The system operates on 220 volts, single phase supply.

We are a leading manufacturers of 100 KN Flexure Testing Machine with Auto Pacing System testing equipment for a range of industries, including materials science testing lab. We offer full range of 100 KN Flexure Testing Machine with Auto Pacing System testing equipment, including 100 KN Flexure Testing Machine with Auto Pacing System testing kit, 100 KN Flexure Testing Machine with Auto Pacing System testing machine, 100 KN Flexure Testing Machine with Auto Pacing System testing tools, 100 KN Flexure Testing Machine with Auto Pacing System test equipment, 100 KN Flexure Testing Machine with Auto Pacing System test machines, 100 KN Flexure Testing Machine with Auto Pacing System for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use 100 KN Flexure Testing Machine with Auto Pacing System testing equipment that helps customers build better, safer, and more sustainable infrastructure.
