

Product Name :
Dorry Abrasion Testing Machine

Product Code :
TEST5067RFQLAB-0013

Description :

Dorry Abrasion Testing Machine

Technical Specification :

For determination of the resistance of aggregates to surface wear by abrasion. The apparatus comprises the following :-

A circular disc mounted on a reduction gear driven by an electric motor at about 28-30 rpm.

Two large trays for holding the sample.

Two small trays for sample.

Two conical hoppers for sand.

Two sample try holders.

Two sets of weights for loading the samples.

A revolution counter.

Suitable for operation on 220 V, 50 Hz, single phase supply.

We are a leading manufacturers of Dorry Abrasion Testing Machine testing equipment for a range of industries, including materials science testing lab. We offer full range of Dorry Abrasion Testing Machine testing equipment, including Dorry Abrasion Testing Machine testing kit, Dorry Abrasion Testing Machine testing machine, Dorry Abrasion Testing Machine testing tools, Dorry Abrasion Testing Machine test equipment, Dorry Abrasion Testing Machine test machines, Dorry Abrasion Testing Machine for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Dorry Abrasion Testing Machine testing equipment that helps customers build better, safer, and more sustainable infrastructure.
