

Product Name :
Universal Extruder Hand Operated

Product Code :
TEST5009RFQLAB-0004

Description :

Universal Extruder Hand Operated

Technical Specification :

For use with different sizes of sampling tubes and core cutters. It comprises of a frame, adapter plates and plungers and plungers adapter for 38mm, 75mm, 100mm and 150mm diameter specimens. A frame for extracting three 38mm dia samples from a 100mm dia sampling tube is also provided.

We are a leading manufacturers of Universal Extruder Hand Operated testing equipment for a range of industries, including materials science testing lab. We offer full range of Universal Extruder Hand Operated testing equipment, including Universal Extruder Hand Operated testing kit, Universal Extruder Hand Operated testing machine, Universal Extruder Hand Operated testing tools, Universal Extruder Hand Operated test equipment, Universal Extruder Hand Operated test machines, Universal Extruder Hand Operated testing Instruments. We are suppliers of materials testing tools equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Universal Extruder Hand Operated testing equipment that helps customers build better, safer, and more sustainable infrastructure.
