

Product Name :
Soil Extruder Rack Type

Product Code :
TEST5009RFQLAB-0005

Description :

Soil Extruder Rack Type

Technical Specification :

Designed for extraction of soil samples from 38 mm dia thin wall sampling tubes on a horizontal position, rack and pinion device. Fitted with a wire trimmer and a split mould mounting bracket.

We are a leading manufacturers of Soil Extruder Rack Type testing equipment for a range of industries, including materials science testing lab. We offer full range of Soil Extruder Rack Type testing equipment, including Soil Extruder Rack Type testing kit, Soil Extruder Rack Type testing machine, Soil Extruder Rack Type testing tools, Soil Extruder Rack Type test equipment, Soil Extruder Rack Type test machines, Soil Extruder Rack Type testing Instruments. We are suppliers of materials testing tools equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Soil Extruder Rack Type testing equipment that helps customers build better, safer, and more sustainable infrastructure.
