

Product Name :
Tension Compression Proving Rings

Product Code :
TEST5022RFQLAB-0002

Description :

Tension Compression Proving Rings for Testing Lab Equipment Tender Suppliers India

Technical Specification :

These rings can be used both in tension as well as compression. The bosses of these rings are integral and have male threads for fixing to the tensile testing machine. Female threaded blind caps are provided on both sides for its use as compression proving rings. The capacity of these rings varies from 1kN to 100kN

Capacity

1.0 kN
2 kN
2.5 kN
5 kN
10 kN
20 kN
250kN
50kN
100kN

We are a leading manufacturers of Tension Compression Proving Rings testing equipment for a range of industries, including materials science testing lab. We offer full range of Tension Compression Proving Rings testing equipment, including Tension Compression Proving Rings testing kit, Tension Compression Proving Rings testing machine, Tension Compression Proving Rings testing tools, Tension Compression Proving Rings test equipment, Tension Compression Proving Rings test machines, Tension Compression Proving Rings for

Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Tension Compression Proving Rings testing equipment that helps customers build better, safer, and more sustainable infrastructure.
