

Product Name :
Split Spoon Sampler

Product Code :
TEST5028RFQLAB-0006

Description :

Split Spoon Sampler

Technical Specification :

This sampler meets the requirements of for carrying out standard penetration tests to determine the penetration resistance of soils in-situ (N – Value)

The equipment comprises the following :-

Split barrel 38 mm I.D. 50.8 mm OD and 500 mm long.

Driving shoe with hardened cutting edge.

Head assembly with ball valve and adopter to fit to A-rod.

We are a leading manufacturers of Split Spoon Sampler testing equipment for a range of industries, including materials science testing lab. We offer full range of Split Spoon Sampler testing equipment, including Split Spoon Sampler testing kit, Split Spoon Sampler testing machine, Split Spoon Sampler testing tools, Split Spoon Sampler test equipment, Split Spoon Sampler test machines, Split Spoon Sampler for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Split Spoon Sampler testing equipment that helps customers build better, safer, and more sustainable infrastructure.
