**Product Code :**  
TEST5180RFQLAB-0004

**Description :**

Air Content Metex

**Technical Specification :**

Air Content Metex

The air meter unit consists of 2 main parts: the base (measuring chamber) and the cover assembly. The cast aluminum base has machine-flanged rims.

The interior surfaces of the base and surfaces of rims, flanges and other component parts are machined to facilitate frequent water clean-Up.

The unit is designed for easy disassembly in order to replace worn or damaged parts in the field.

Capacity (L): 7

Air content range: 0-10%

Accuracy: CU % (1%-6% of air content);  $\pm 8.2\%$  (6%-10% of air content)

Supplied with accessories and storage case.
