

**Product Name :**  
Digital Concrete Test Hammer

**Product Code :**  
TEST5180RFQLAB-0010

**Description :**

Digital Concrete Test Hammer

**Technical Specification :**

Digital Concrete Test Hammer

The digital hammer, which is battery operated, can be easily connected to a PC or serial printer via the RS 232 port.

A large permanent memory can store up to 48000 results. Supplied complete with battery charger and serial cable.

Measuring strength ranges: 10-60 MPa

Impact energy: 2.207 Nm

Strike hammer smoke: 75 mm

The consistency of the sample displayed values:  $\pm 0.5$  (difference value between digital sampling output value and the pointer readings)

Stiffness of soike tension spring 785N/m
