

Product Name :
R-600a Refrigerant

Product Code :
TEST5186RFQLAB-0003

Description :

R-600a Refrigerant

Technical Specification :

R-600a Refrigerant

The R-600A is one of the most potent refrigerant gases in household ACs and commercial HVACs.

R-600A has a very low Global Warming Potential (GWP). This means that it is not harmful enough to contribute to the depletion of the Ozone layer, which is one of the key drivers of global warming.

This gas is a specialised natural refrigerant and has one of the lowest power consumptions when used in ACs, HVACs, and freezers.

R-600A is also compatible with a wide variety of lubricants.

Besides, this gas also boasts a best-in-class thermodynamic performance.

Non-refillable cylinder

Size: 7kg.
