

Product Name :
Izod and Charpy Impact Tension Tester

Product Code :
TEST5095RFQLAB-0001

Description :

Izod and Charpy Impact Tension Tester for Testing Lab Equipment Tender Suppliers India

Technical Specification :

This Izod Impact Tester is designed for conducting CHARPY, IZOD and IMPACT TENSION test. The method confirm to IS: 1757-1973 and IS: 1499-1977, IS: 1598 – 1977, BS : 131 Part 4 – 1972 & EN 10045 – 2. The Impact energy absorbed by the specimen during rupture is measured as the difference between the height of drop before rupture and the height of rise after rupture of the test specimen and is read on the dial scale. The unit has a hammer connected to the antifriction bearing body through a hollow pipe. There are two positions for releasing the hammer, upper position for 'Charpy' and lower position for 'Izod'. On release of the hammer, it swings down to break the specimen. The differential energy before after breaking of the specimen is shown on the scale directly in Joule's. Pointer which is freely attached to the scale indicates the reading on the scale. System is supplied complete with two strikes and a combined support to be fixed in the base. Manual break is provided for stopping the pendulum from swinging after the test. Guard is provided for operator protection.

We are a leading manufacturers of Izod and Charpy Impact Tension testing equipment for a range of industries, including materials science testing lab. We offer full range of Izod and Charpy Impact Tension testing equipment, including Izod and Charpy Impact Tension testing kit, Izod and Charpy Impact Tension testing machine, Izod and Charpy Impact Tension testing tools, Izod and Charpy Impact Tension test equipment, Izod and Charpy Impact Tension test machines, Izod and Charpy Impact Tension for Lab Testing Instruments. We are suppliers of materials testing tools and equipment for the construction industry. Our mission is to provide reliable, accurate, and easy-to-use Izod and Charpy Impact Tension testing equipment that helps customers build better, safer, and

more sustainable infrastructure.
